NOTICE OF INFORMATION SESSION
Traffic Signal Operations and Support Contracts
Office of Traffic Operations

The Georgia Department of Transportation (Department), Office of Traffic Operations, is conducting an information session to share our visions for the future of traffic signal operations in Georgia and answer questions about the three (3) new traffic signal operations contracts for the metro Atlanta area and the two (2) statewide traffic signal operations support contracts.

The Department intends to award five (5) contracts related to traffic signal operations in calendar year 2020. In an effort to provide potential Proposers with a better understanding of the needs of these contracts, the Department has scheduled an information session on May 27th, 2020 from 1:00pm to 3:00pm. Due to the current social distancing orders in place, this forum will be conducted completely online through a Microsoft Teams Meeting. A call in number is also available.

The forum will include a general session during which Department staff will describe the five (5) new contracts, overall program goals for traffic signal operations in the Department, proposed schedule for initiating these contracts and answer questions from prospective proposers. The link to attend the Microsoft Teams Meeting and call in number are listed below:
